## MAKS GTC S

### GAS TURBINE CLEANER SOLVENT BASED

#### GENERAL DESCRIPTION

**MAKS GTC S** is a solvent-based, high quality cleaner designed for on- and off-line application.

#### PRINCIPAL USES

**MAKS GTC S** is specifically formulated from organic solvents, surfactants and emulsifiers designed to remove grease, oil, soot and other deposits commonly found on gas turbine compressor blades.

#### PRODUCT BENEFITS

- . Most effective solvent-based compressor cleaner for removing severe hydrophobic contamination
- . Conforms to the specifications of all major gas turbine manufacturers

#### DOSAGE

The specific dosage of **MAKS GTC S** varies depending on the operating characteristics of your system and the water chemistry.

Your **BIMAKS** representative will recommend the optimum dosage necessary to ensure maximum program performance according to your specific system parameters.

#### HANDLING-STORAGE-SHIPPING

As a standard precaution with all chemicals we recommend the use of personal protective equipments such as goggles and rubber gloves when handling. Consult the Material Safety Data Sheet as the only official source of Environmental and Safety information.

**MAKS GTC S** can be stored for at least 24 months from date of shipping if kept in its original, unopened container and under normal warehouse conditions. Protect from freezing and from exposure to high temperature.

**MAKS GTC S** is available in non-returnable containers of different sizes.
