PRODUCT BULLETIN

MAKS 9113M

SCALE INHIBITOR

GENERAL DESCRIPTION

MAKS 9113M is a highly concentrated scale inhibitor particularly used in oil drilling operations.

PRINCIPAL USES

MAKS 9113M is scale inhibitor formulated to inhibit both carbonate and sulphate scales of calcium, strontium and barium.

PRODUCT BENEFITS

- Minimize mineral scale deposits in export line valves on platform wells without the necessity of high-cost well interventions
- Highly effective accross a broad spectrum of oilfield brines
- Stable up to 450°F
- Prevention against calcium carbonate > 90 %
- Prevention against calcium sulphate > 95 %

DOSAGE & FEEDING

Treatment rates will depend on the severity of the scaling problem, the type of scale, temperature and pressure so that each application must be evaluated individually to ascertain the optimum dose level and the best application technique. However, for most situation, a level of 5 to 15 ppm (based on total fluids) provide good protection.

MAKS 9113M can be applied using either a slug-feed treatment or continuous injection via a suitable metering pump. Bimaks recommends continuous feeding.

Your **BIMAKS** representative will recommend the optimum dosage necessary to ensure maximum program performance according

MATERIALS: Storage and application equipments (pumps, lines) Plasite, Rubber, PVC, Teflon, Vinyl, Plexiglass and Polyurethane, among others. It should not be used with Copper, Aluminum, Brass, Mild Steel, 304 SS, 316 SS, Plasite 7122 or Neoprene.

HANDLING-STORAGE-SHIPPING

As a standard precaution with all chemicals we recommend the use of personal protective equipments such as goggles and rubber gloves when handling. Consult the Material Safety Data Sheet as the only official source of Environmental and Safety information.

MAKS 9113M can be stored for at least 24 months from date of shipping if kept in its original, unopened container and under normal warehouse conditions. Protect from freezing and from exposure to high temperature.

MAKS 9113M is available in non-returnable containers of different sizes.
